

KNOW YOUR FARMER, KNOW YOUR APPLES

Fieldbrook Valley Apple Farms Fieldbrook, California

THE FAMILY BEHIND THE FARM:
The Lovie Family.

FARM SIZE: 5 acres, including 2.5 acres of apple trees. That's about 2 football fields of trees!

HARVEST TIMING: The Lovie's grow over 50 varieties of apples that they harvest from August through December.

FARM TO TABLE: The Lovie's harvest each apple by hand when it is fully ripe. They collect the apples into apple-picking bags, and then bring them to the barn to be polished, sorted, and boxed up for delivery.

WHERE YOU CAN FIND THEIR PRODUCE: You can find Fieldbrook Valley Apple Farms' apples at farmers markets, grocery stores, and schools across Humboldt and Del Norte Counties. The Lovies also sell their apples through their own store at their farm in Fieldbrook.

WHAT THEY LOVE ABOUT FARMING: The Lovies enjoy being out in the fresh air working together as a family. The best part is watching what they work hard to accomplish come to maturity.

Dick and Betty Lovie with their son Arley Smith.
